Emergency overview: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use.

### Potential health effects:

- Eye: Contact with vapor or liquid may irritate the eyes.
- Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient.
- Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated.
- Ingestion: Product used as intended (not intended for oral consumption) is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

### First-aid measures:

Eye contact If this product comes in contact with eyes:

- >Wash out immediately with water.
- >If irritation continues, seek medical attention.
- >Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

### Skin contact

- > None under normal use. Inhalation
- > No specific treatment is necessary since this material is not likely to be hazardous by inhalation. If exposed to excessive levels of dusts or fumes, remove to fresh air and get medical attention if cough or other symptoms develop.

### Ingestion

- > If swallowed in small quantity the product is harmless, otherwise consult a doctor.
